### STATE LOTTERY BONANZA

*The LOTTERY DREAM e-Book- by Lahlitha*

The human body is a magnificent instrument. It's a brilliant, wondrous, miraculous creation. Inside it lies answers to many of the trials and tribulations each of us face everyday. It even possesses the power to heal itself. It's a totally natural apparatus that needs little artificial input to function, but we still force feed our furnace plastic and are surprised when it begins to melt. Basically it gives you back what you ask of it. If you are good to it, most likely it will be good to you. If you are bad to it, what do you expect in return? If a person smokes multiple packs of cigarettes a day, they should expect some damage to be done to their lungs. Either they are going to have breathing problems or expect cancer to knock on the door at some point. If a person over eats and doesn't exercise, their thighs will one-day play patty cake when they walk. Exercise diligently and it will reflect both in health and body appearance. If one pushes or pulls weighted objects on a scale, which is more than their natural strength can handle, their muscles will grow larger to compensate for the load. Age saps elasticity from muscles and ligaments, as we grow older. If we don't stretch; our bodies will become stiff, tightly wound and we become injury prone. Stretch often, they will stay flexible and maybe even become more elastic. The alleged limits of the human body are a question that can't be answered for sure, because we don't really know what the mind is capable of.

Some well-schooled, dean's list, metaphysically trained scientist will expound on the subject like they have a clue, but it's not true. Sure they have studied and experimented, but even the most brilliant of them is limited by his mind, his up bringing, his foregone conclusions and prejudices. If a person believes something is out of his reach; IT IS. If one believes and goes about things with all their heart, limits are merely temporary tollbooths asking how much effort are you willing to spend. I've heard that we only use about 15% of our brain. If that's true, what would we think of a person who was by some miracle using 30%? What would this person be capable of?

Could this person store up the electrical impulses that flow throughout the body from the brain and expel it through their hands? Like a superhero. Maybe? Someone like that may even possess the ability to restart someone's heart, much like a defibrillator. Who knows what the possibilities are?

Most people believe their dreams have some kind of message in them, especially when they seem to come out of the blue. A dream about an Aunt that you haven't seen in years... maybe in a dream you're wearing a red scarf... or riding a horse, I tell you there is meaning in it. A dream about a dead relative, a game of baseball, a favorite food, all mean something, you just have to translate it into figures. Dreams are a look into a world our conscious isn't capable of understanding, our dreams can bring any sort of message, but in this book we are going to try to help you get to the riches you deserve. We have put lottery numbers to a collection of different happenings, circumstances, colors and more... The combinations and how they relate to each other have been passed down for years through clandestine Old World practices, mythical old wives tales and other hush-hush customs.

Readers, mystics, spiritualist, and shaman have shared the secrets for years and now you can see inside their world. Many people have improved their financial status through the use of paperback LOTTERY DREAM books before, now we bring to you the first e-book version; The STATE LOTTERY BONANZA DREAM BOOK. Don't believe it can work for you? Give it a try, serious lottery players have known of these secrets for years and still use them to prosper and gain an advantage over the, I Don't Believe People. The skeptical don't think the numbers will lead you to fortune, they're right; your dreams will lead you to the numbers, which will bring you fortune and answer your dreams. All you have to do is understand them.

Good Luck,  
Lohlitha

## **Chocolate Cherry Milk Evolution** **By Java Bomani**

### About the Book

*When most people hear statements like: The feel good movie of the year or Your taste buds will love you for it or 9 out of 10 doctors agree - they realize they are being hit with a sales pitch for a product that may or may not live up to the hype.*

*Having said that: It will be some time before another book like Chocolate Cherry Milk Evolution comes along.*

*CCMilk expresses most of the emotions a person experiences at some point in their lives. Everyone will be able to relate wholeheartedly to at least one poem. Moreover, the poems in this book are realistic, humorous, romantic, and passionate. In summary, those emotions are beautifully displayed*

**Priti T.**

*Poetry is the expression of genuine feelings. This quality of being able to express pure artistic value is what makes this book great poetic work. This book causes the reader, to step back and see his joy, pain and romantic bliss. CCMilk urges us to look into ourselves and see what we can express.*

**Kenneth Edwards**

*CCMilk is a poetic tour de force that shows the urban Hip-Hop influence of its writer. Rose Petals and Como Esta Usted are two of my favorites, but then again there are so many... It was quite a challenge to pick any favorites because each time I read another, I was forced to change my mind. I thoroughly enjoyed it! Java Bomani has risen like a Phoenix.... -*
